SAGAR MANJUNATH

has successfully completed the online, non-credit Specialization

AI-Enhanced Data Analysis: From Raw Data to Deep Insights

Now that you have completed the Microsoft Data Analysis Fundamentals Specialization, you stand out with a unique set of skills and knowledge in the dynamic field of data analysis. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this program, you've engaged with instructional videos, assessments, and practical exercises, gaining a deep understanding of key aspects of data analysis, including: • Proficiency in cleaning, manipulating, and analyzing data using Excel Copilot and Python pandas for accurate insights. • Skills in creating compelling visualizations and reports using advanced Excel features, Python libraries, and Power BI. • Capability in developing AI-powered data analysis workflows combining multiple Microsoft tools
